SUMMARY

I am a motivated BCA student focused on front-end development, skilled in HTML, CSS, JavaScript, and React. I have built projects like a Pet Adoption Website, BMI Calculator, and Quiz Application, which strengthened my design and problem-solving skills. I'm continuously learning backend and database concepts to grow into a full-stack developer in the future.

ACHIEVEMENTS

SKILLS

- Web Development(HTML,CSS,JavaScript, React) - Skillful
- frontend development - Skillful
- Teamwork and collaboration (experience in group projects) - Experienced
- Problem-solving & Analytical Thinking: - Skillful
- Creativity and Content Creation - Skillful
- Android Application Development (Java, xml and Firebase - Skillful
- ASP.NET,C,C#,MS SQL,PHP,HTML,CSS,JAVASCRIPT -

EDUCATION

+2 (Computer Science)

Model Multiple College / Janakpur / July, 2019 - January, 2022

Bachelor of Computer Application

Saraswati Multiple Campus / Kathmandu, Nepal / January, 2022 - Present

EXPERIENCE

Social Media Manager (Intern/Freelance)

Front-End Intern (Web Development)

SERA Digital Hub / Shorakhutte Chowk, Kathmandu / December, 2025 - Present

- Developing responsive and user-friendly web pages using HTML, CSS, JavaScript, and React.
- Converting UI/UX designs into clean, functional front-end components.
- Collaborating with the development team to improve website layout and overall user experience.
- Optimizing web pages for speed, performance, and mobile responsiveness.
- Fixing UI bugs and refining interactive elements for smoother functionality.
- Working with reusable components and following modern front-end best practices.
- Testing, debugging, and ensuring cross-browser compatibility.
- Learning and applying industry-standard workflows, Git version control, and teamwork skills.

PROJECTS

Pet Adoption Management System (4th Semester Academic Project)

- Collaborated with a team to design and develop a dynamic website using PHP, HTML, CSS, and MySQL.
- Built core features for pet buying, selling, and adoption.
- Enabled sellers to add and manage pet details with images, while buyers could explore and select pets.
- Integrated a direct contact system between buyer and seller for communication.

Quiz Application (6th Semester Academic Project)

- Developed an Android-based quiz application using Java and Android Studio.
- Implemented features such as randomized MCQs, timers, scoring system, and leaderboard.
- Integrated Firebase Authentication for secure login and registration.
- Designed both online and offline modes, allowing users to play quizzes anytime.
- Added category-based quizzes, lifelines, daily quizzes, and achievements system to enhance user engagement.
- Focused on user-friendly interface and smooth app performance.
